Subject:	when chef_checkout is 0, the contract never gets past it.		
Description:	In building in the devel_1_0 branch of contract-synergia2 and contractor. The configure option chef_checkout is set to 1. Running contract.py goes through checking out chef with git and then stops. Rerunning, re-checks out chef. db/logs/chef-libs shows that it has run git clone and populated the build/chef-libs/.git directory, but nothing else. db/tags/chef-libs has not even been created.

I meant the problem occurs when chef_checkout=1
